

section 3 – water connection(s) details

3a. Connection details

i) do you require a supply greater than 32mm outside diameter?

yes no

if **yes**, please complete the table below:

plot	maximum instantaneous demand litres per second	volume of on site storage

ii) number of sprinkler heads to be installed:

iii) will in-line pump be installed?

yes no

3b. Plumbing contractor/installer details

i) will you be using an Anglian Water approved plumber/contractor for internal plumbing?

yes no

if **yes**, please provide registration number:

ii) will you be using an Anglian Water approved underground installer/site agent for underground service pipes?

yes no

if **yes**, please provide registration number:

Please provide name and address details below:

name:

company name:

address:

postcode:

approved scheme:

registration number:

All domestic fire sprinkler systems shall be installed in accordance with British Standard BS 9251:2005. Notification under Regulation 5 of the Water Supply (Water Fittings) Regulations 1999 must be served to: Anglian Water Services Limited, Water Regulations Team, PO Box 495, Huntingdon, Cambridgeshire PE29 6YY. The notification must include a full illustration drawing showing all pipework and fittings. Failure to notify will result in delays in your application being progressed.

section 4 – infrastructure charges

4a. Infrastructure charges

All new connections to the public water mains are liable for payment of an infrastructure charge before connection. For normal domestic connections (32mm) the charge is standard. For connections greater than 32mm infrastructure charge will be calculated using the relevant multiplier.

section 5 – VAT

Please indicate below type of property:

new domestic dwelling

Civil engineering services provided in the course of the construction of new domestic dwellings will be zero rated.

relevant residential/charitable

If you are applying for VAT zero rating because intended use is for a relevant residential or relevant charitable purpose.

charity number:

listed building

If the property is a listed building, and you are applying for VAT zero rating as an approved alteration to a listed building.

Customs and Excise certificate number:

domestic conversion

If the project is a domestic conversion, and you are applying for the 5% reduced rate of VAT to be applied.

Please note: where the connection is made off site, current interpretation by HMRC of VAT legislation will not allow the reduced rate to be applied, if connection is inside the property boundary.

PLEASE NOTE: where you are applying for the zero rate or reduced rate under the 'listed building', 'relevant residential/charitable' or 'domestic conversion' categories above, you must provide the necessary evidence to support your request. This applies to the majority of Anglian Water connections.

section 6 – declaration

- i) I wish to apply for a new water connection(s) as described to the premises referred to in section 2 of this form, under Section 45 or 55 of the Water Industry Act 1991 and I acknowledge my responsibility with regard to compliance with the Water Supply (Water Fittings) Regulations 1999 including Regulation 5 and in accordance with appropriate Anglian Water terms and conditions (copy of which is enclosed).
- ii) I have provided all the information requested and, should it be necessary, I appoint Anglian Water as my agent for any relevant work outside my boundary. (Connections to an existing water main adjacent to the site are deemed to be part of the site work.)
- iii) I acknowledge that in making this application I will be liable for any charges payable in respect of the connection(s) to which this application relates, including infrastructure charges.
- iv) I can confirm that I have notified Anglian Water of these works under the Water Supply (Water Fittings) Regulations 1999.
- v) I have read the 'terms and conditions of supply of water for automatic fire fighting systems' www.anglianwater.co.uk/developers/installation/sprinklers.aspx.
- vi) I can confirm that the fire sprinkler system will be installed in accordance with BS 9251:2500.

Please return your completed application form, including:

- i) **plans** – 2 copies of A4 site plans (scale 1:500) and 2 copies of location plan (scale 1:2500)
- ii) **location of service entry point to individual plots**
- iii) **pipework route drawings and water fittings schedule** – which includes the proposed backflow device
- iv) **soil report** – if applicable

Remember, failure to provide all details will result in delays to your application.

Please return all documentation to:

Developer Services, Anglian Water, PO Box 495, Huntingdon, Cambridgeshire PE29 6YY

Please do not forward any payment with this application as you will be invoiced separately.

Should you have any questions regarding this form, please call: 0845 6066087 or email: developerservices@anglianwater.co.uk. Further details can be found on the Anglian Water website: www.anglianwater.co.uk/developers.
