

Holiday SCENE

With so many holidays on offer at **Anglian Water** there is no better time to treat yourselves to a break in 2009. Whether you choose a **'Four Waters'** flyfishing break, coarse fishing at Norfolk's beautiful **Taverham Mill**, or taking the opportunity to use our family **Activity Pass**, there's something for everyone on the Water Parks of **Anglian Water**.

Eight Scottish anglers enjoy their stay fishing the 'Big Four'

I would like to recommend the Bulls Head at Arthingworth as a great place to stay when fishing Anglian Water four-waters fishing holidays.

Myself and three other guys from Dumfries have fished this package for the last twelve years for a week usually in June.

The last four years we have teamed up with four anglers from Edinburgh who we met fishing competitions in Scotland, we are all now great friends and enjoy our time fishing together.

For the last three years we have stayed at The Bulls Head, Arthingworth. We find it's a great place to stay and handy to travel to the four Anglian Water reservoirs. Rutland and Grafham are about a 40 minute drive from the Bull's Head, with Pitsford and Ravensthorpe about 20 minutes away. Getting something to eat late at night is not a problem at the Bull's Head, as Kevin will cook us a meal even at 11 o'clock at night. We have always found both Kevin and Sandy to be great hosts.

In 2007 we fished Grafham, Pitsford and Rutland and had a great six days fishing ending up with 249 fish. Stevie Clark from Edinburgh caught a rainbow of 10lb 8oz - featured in last year's 'Hooked' magazine - and a brown trout of 7lb 8oz, both caught at Pitsford Water.

In 2008 we only fished for five days, three at Grafham and two at Pitsford between us we caught a total of 206 trout, most around the 5lb-6lb mark with many of which were returned.

Again, many thanks for a great holiday and we will definitely see you all again in 2009.
