

LOAN NOTES ISSUED FOLLOWING THE ACQUISITION OF AWG PLC IN NOVEMBER 2006

OSPREY ACQUISITIONS LIMITED LOANING RATE SECURED LOAN NOTES 2012 (THE "LOAN NOTES")

Why were Loan Notes issued?

If you were a shareholder in AWG Plc prior to February 2007 you may have elected to take loan notes instead of receiving cash for your shares. These loan notes were issued in 2007 by Osprey Acquisitions Limited

Unclaimed Principal

All Loan Notes issued were compulsorily redeemed on 31 December 2012.

In order to claim the redemption monies, Loan Note holders were required to return their Loan Note certificates duly completed to the Registrars, Equiniti.

If you have not yet sent your duly completed Loan Note certificate to Equiniti, you should do so as soon as possible. Payment of unclaimed principal monies is now made twice annually, in December and June, to Noteholders who have come forward since the final redemption date.

Loan Note interest ceased to accrue on the Loan Notes on 31 December 2012.

Lost Loan Note Certificates

If you have not claimed your Loan Note principal monies because you cannot find your certificate, you should also contact Equiniti to let them know, and they will arrange a letter of indemnity for you. Following that, payment of the Loan Note principal monies can be made to you

Historic Unclaimed Loan Note Interest

A number of Loan Note holders have failed to cash cheques for interest earned on the Loan Notes prior to 31 December 2012. If you find an out-of-date uncashed cheque for Loan Note interest, please send it to Equiniti, who will make arrangements to issue you with a replacement cheque (a charge will be made for this service).

After 5 years, unclaimed interest can be forfeited and paid to Osprey, but we will write to affected Loan Note holders before this takes place.
