### 1. What is DART?

DART stands for Developer Account Recharge Tracker. It is an Anglian Water scheme which provides an easier and more effective way for you to manage the administration and costings of developments within the Anglian Water region. DART aims to encourage a good working relationship ensuring a rapid response to development issues.

DART enables you to raise and complete jobs on an account, before making payment on a monthly statement.

Subject to a successful financial assessment Anglian Water will allow you to enter into a DART contract.

To apply to be a DART customer please send us your latest annual audited accounts and an estimation of connections for the coming year. Please note a minimum of 100 connections per annum are required to qualify.

**If you have any further questions or wish to apply to be a DART customer, please contact Marta Trykacz by:**

- Phone on 01480 323805
- Email [mtrykacz@anglianwater.co.uk](mailto:mtrykacz@anglianwater.co.uk)
- Write to Marta Trykacz, Developer Services Income, PO Box 495, Huntingdon, Cambs PE29 6YY

### 2. The benefits to the Developer

#### Unique account number

You are assigned an account number, which provides you with a personalised service for your billing account.

#### Consolidated payments

All charges relating to water requisitioning from multiple sites can be allocated on the DART account.

#### Reduced administration costs

As DART is a monthly billed account, only one statement is sent per month listing all current jobs raised and the total payment required.

### Improved cash flow

DART enables payment on completion of the job, allowing the site manager to call off work without obtaining cash clearance. This allows you to pay for the work once it is completed. This applies to:

- Mains design deposit
- Water zonal charges
- Sewerage zonal charges

This can also reduce administration costs, as it is no longer necessary to raise a cheque before the work can be actioned.

### 3. You are responsible for:

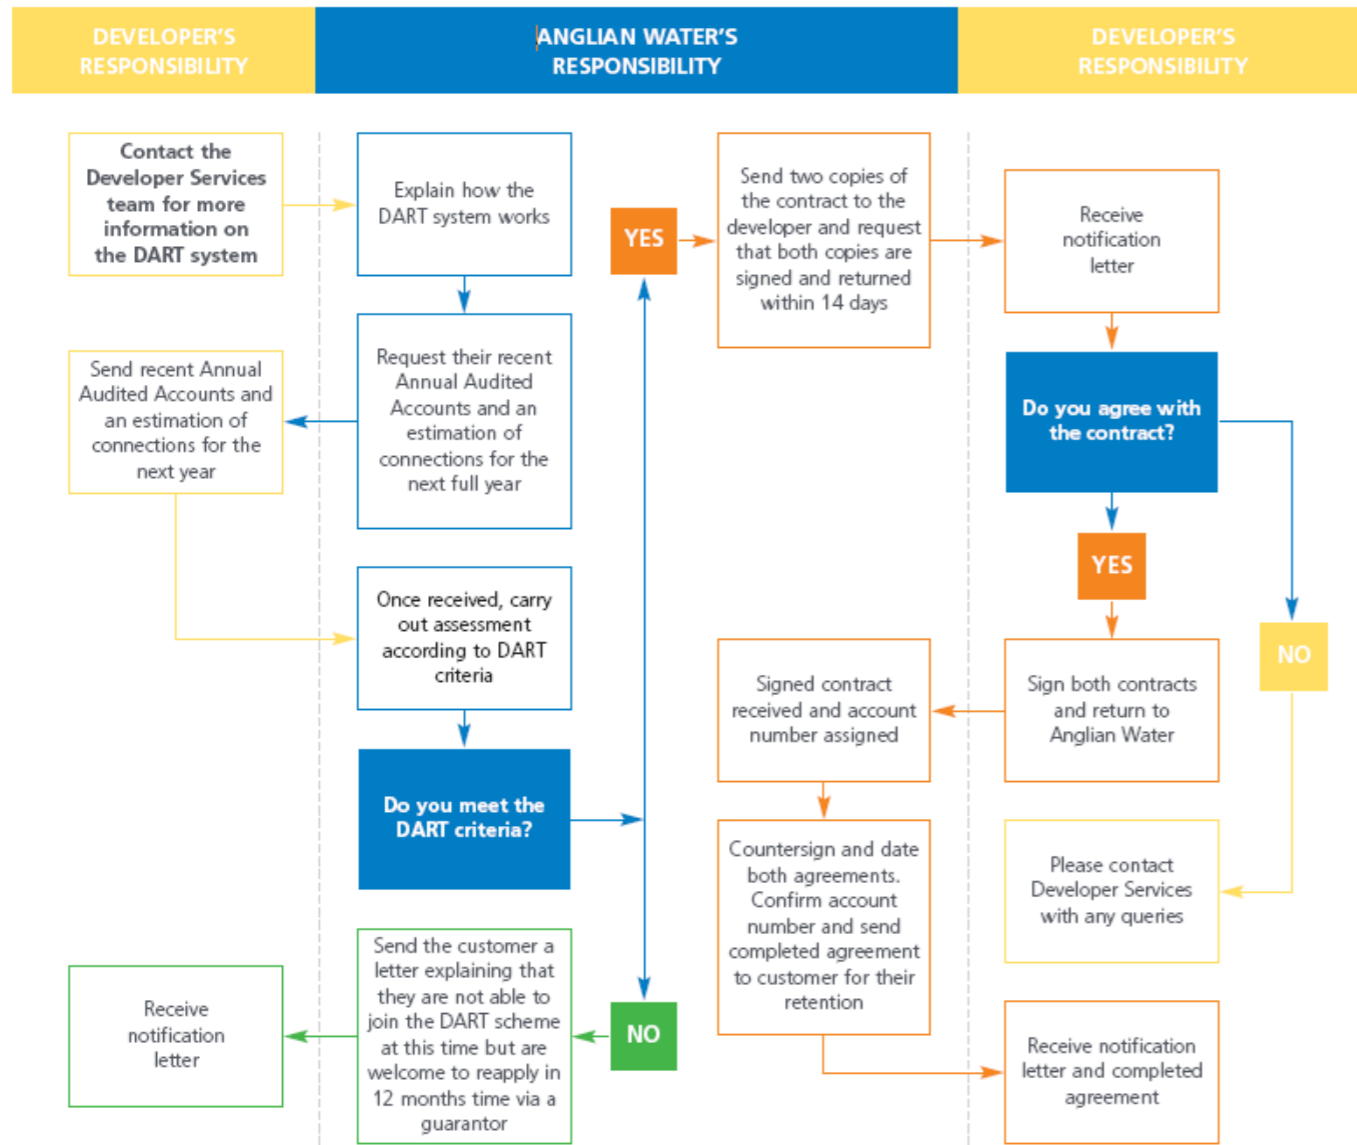

- Providing your Annual Audited Accounts and an estimation of connections for the coming year.
- Providing acknowledgement of receipt of the contract within 15 days.
- Returning signed contract to us within one month.
- Quoting your account number clearly on payments or on any correspondence.
- Making payments in full within 10 working days of the invoice date. If any invoiced amount is not paid in full within 10 working days interest shall be payable.
- Raising any queries that you have within five working days of the invoice date.

### 4. We are responsible for:

- Assessing the developer viability for DART.
- Providing DART agreement.
- Assigning a credit limit and an account number.
- Collating invoices and supplying one monthly statement.
- Investigating any queries raised.

**FACT:**  
We are committed to reducing our embodied carbon by 50%
