

SL4 - Water quality record sheet for service connection checks

This form must be completed for each plot connected and emailed to both WQRiskandOptimisation@anglianwater.co.uk and connections@anglianwater.co.uk within two working days.

Only employees who have received the relevant Anglian Water training are permitted to carry out service connections.

Section 1 - Contact details and site address

Operative name(s):	
Company/self lay organisation:	
Contact telephone number (preferably mobile):	
Site address:	
	Postcode:

Section 2 - Chlorine test results

Please complete the table below.

Job number	Plot number	After flushing		Smell satisfactory (yes/no)	Taste satisfactory (yes/no)	Date	Time
		Free chlorine (mg/l)	Total chlorine (mg/l)				

If you are unable to obtain a chlorine residual or it exceeds 1mg/litre please contact Anglian Water immediately on 03457 145 145 and ask for a message to be passed to a duty scientist.

Once this form is completed, please email to WQRiskandOptimisation@anglianwater.co.uk and connections@anglianwater.co.uk within two working days.

This form is to be retained by Anglian Water for a period of two years
