## Half-yearly management report

### For the six months ended 30 September 2021

#### Business review

The principal activity of Anglian Water Services Financing (“AWSF”) is the raising of listed debt, on the UK public bond market, to on-lend to Anglian Water Services Limited (“AWSL”) and it forms part of the group of four companies referred to as the Anglian Water Services Financing Group (“AWSFG”) as shown below.

During the first six months of this financial year the company has performed in-line with expectations, with interest being incurred on its long-term borrowings and earned on the loans to Anglian Water Services Limited.

The loans to Anglian Water Services Limited are on a “back-to-back” arrangement whereby all borrowings are replicated on identical terms.

In respect of financing, AWSF continues to develop its funding profile to assist the Group to provide economic hedge against the regulatory transition from RPI to CPIH linked revenues, and to align financing with the group’s focus on sustainability. In the half-year to 30 September 2021, the Group received £100.5 million from debt issuances.

Debt repayments in the period amounted to £548.6 million as a result of the maturity of the 4.520% Class B USPP (£99.1 million) and early repayment of three Class B debt USPP instruments in September totalling £391.0 million (on a GBP basis including associated foreign currency derivative swaps). Additionally, the Group repaid £25.0 million on the syndicated and bilateral revolving facilities, meaning that at period end these facilities were fully undrawn. Other debt repayments in the period were various smaller scheduled amortising debt payments as they fell due.

The Group has access to £600.0 million of undrawn facilities (September 2020: £450.0 million; March 2021: £575.0 million), to finance working capital and capital expenditure requirements. In addition, the Group has access to a further £400.0 million of liquidity facilities (September 2020 and March 2021: £400.0 million), consisting of £279.0 million (September 2020 and March 2021: £279.0 million) to finance debt service costs and £121.0 million (September 2020 and March 2021: £121.0 million) to finance operating expenditure and maintenance capital expenditure in the event that the company was in an Event of Default on its debt obligations and had insufficient alternative sources of liquidity.

#### Principal risks and uncertainties

The management of the business and execution of the company’s strategy are subject to a number of risks, the principal risks being management of liquidity, interest rate and foreign currency exposure. These are consistent with those included in the Annual Report and Accounts for the year ended 31 March 2021.

Further detail on these risks and uncertainties is included in the Annual Report and Accounts which can be found on the Anglian Water website at <http://www.anglianwater.co.uk/about-us/annual-reports/>.

**Responsibility statement**

The directors are responsible for preparing the interim financial statements in accordance with applicable law, regulations and accounting standards, and ensuring that they give a true and fair view of the assets, liabilities, financial position and profit or loss of the group for that period.

The directors confirm that the condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, 'Interim Financial Reporting', and that the interim management report includes a fair review of the information required by DTR 4.2.7 and 4.2.8, namely:

- an indication of important events that have occurred during the first six months and their impact on the condensed set of financial statements, and a description of the principal risks and uncertainties for the remaining six months of the financial year; and
- material related party transactions in the first six months and any material changes in related party transactions described in the last annual report.

By order of the Board:

**Peter Simpson**  
Chief Executive

**Steve Buck**  
Chief Financial Officer

## Notes to the condensed financial statements

for the six months ended 30 September 2021

### 1. Basis of preparation and accounting policies

This interim report has been prepared in accordance with Financial Reporting Standard 104, 'Interim Financial Reporting' (FRS 104), and FRS 101, 'Reduced Disclosure Framework' (FRS 101), and in accordance with the Companies Act 2006.

The condensed financial statements for the six months ended 30 September 2021, including comparative information, do not constitute statutory accounts of the company. Statutory accounts for the year ended 31 March 2021 were approved by the Board on 16 June 2021 and the Auditor's report on those accounts was unqualified. The condensed financial statements for the six months ended 30 September 2021 should be read in conjunction with the financial statements for the year ended 31 March 2021 which can be obtained from the Company Secretary, Lancaster House, Lancaster Way, Ermine Business Park, Huntingdon, Cambridgeshire PE29 6XU.

The Directors have undertaken a detailed review to assess the liquidity requirements of the company compared against the cash and facilities available to it, and have reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the financial information.

The accounting policies adopted in these condensed financial statements are consistent with those applied and set out in the annual report and consolidated financial statements for the year ended 31 March 2021, except for the estimation of income tax for interim reporting.

The tax charge is based on the estimated effective tax rate before exceptional items, fair value adjustments and adjustments in respect of prior periods, for the full year to 31 March 2022.

The company holds Retail Price Index (RPI) and Consumer Price Index (CPI) swaps to enable the group to hedge against RPI movement in the Regulated Capital Value (RCV) and revenues of Anglian Water Services Limited. These inflation swaps would not qualify for hedge accounting under IFRS 9 and consequently are held at fair value with movements taken to the statement of comprehensive income, however, it is the opinion of the Directors that they remain highly effective economic hedges.

The company holds interest rate swaps and cross currency swaps to enable the group to hedge its exposure to foreign exchange and interest rate risks arising from operational, financing and investment activity in the group.

Within the company hedge accounting is not applied and therefore the movements in the fair value of these derivatives are included in the statement of comprehensive income. The company has a “back-to-back” arrangement with Anglian Water Services Limited whereby all borrowings and derivatives are replicated on identical terms, thus resulting in a net neutral impact on the statement of comprehensive income.

It has been agreed that companies within the Anglian Water Services Financing Group (AWSFG) will not pay each other for tax losses. The AWSFG consists of Anglian Water Services Limited, Anglian Water Services Financing Plc, Anglian Water Services Holdings Limited and Anglian Water Services UK Parent Co Limited.

The company does not have any deferred tax balances recognised or otherwise.

In accordance with IFRS 9 5.5 'Recognition of expected credit losses', as at 30 September 2020 the company has recorded an expected credit loss in relation to the intercompany loan between Anglian Water Services Limited (AWSL) and Anglian Water Services Financing Plc of £18.1 million (30 September 2020: £18.0 million; 31 March 2021: £18.6 million).

The expected credit loss is calculated based on a one year credit spread of AWSL of 28 basis points (30 September 2020: 26 basis points; 31 March 2021: 27 basis points), however, as the only business of the entity is to raise funds for AWSL, any losses due to a credit event in AWSL would effectively be incurred by the external debt holders. As such, the expected credit loss provision reflects a mismatch in accounting treatment between assets and liabilities and is not a true economic exposure for the entity.

In accordance with an intercompany loan agreement made in 2002, debt issue costs are excluded from the amounts disclosed in these financial statements. This is because under the loan agreement all debt issue costs are borne by the parent company, Anglian Water Services Limited. As at 30 September 2020 unamortised debt issue costs totalled £20.7 million (30 September 2020: £31.5 million, 31 March 2021: £22.3 million).
