

Start right now!

Are you ready to ?

Fill in the chart for the next seven days. Write how you will cut wasted water at home.

Colour in one ring of the target each time you drop 20 litres.

Can you reach the bull's-eye?

Water use - approximate	
	Running the tap while brushing teeth: 6 litres per minute
	Taking a shower: 8 litres per minute
	Flushing the toilet: 7 litres per flush
	Bucket of water (and sponge): 10 litres
	One full load - washing machine: 50 litres
	Bath: 80 litres
	Using the hosepipe: 150 litres per ten minutes

	Activity	Estimate amount saved:	 ✓/✗
Example Day 1	Two-minute shower instead of bath	80 litres - 16 litres = 64 litres	✓
